## DIRECTORS' REPORT

## DIRECTORS' REPORT

The Directors of Vita Life Sciences Limited ("Company" or "Vita Life Sciences") submit their report together with the financial report for Vita Life Sciences and its controlled entities for the half-year ended 30 June 2019.

### DIRECTORS

The names of the Company's directors in office throughout and since the end of the last financial period are set out below.

Mr Henry G Townsing	Acting Chairman
Mr Andrew O'Keefe	Managing Director
Mr Vanda R Gould	Non-Executive Director
Mr Shane Teoh	Non-Executive Director
Mr Jonathan J Tooth	Non-Executive Director

All directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

### Principal Activities

During the period in review the principal continuing activities of the consolidated entity consisted of formulating, packaging, sales and distribution of vitamins and supplements and, investment.

### OPERATING AND FINANCIAL REVIEW

The Directors report revenue for the six months to 30 June 2019 was \$20.4 million, up 1%, delivering a net profit after tax attributable to Vita Life Sciences shareholders of \$1.1 million, down 45% compared to the prior corresponding period profit.

Tougher retailing conditions within the Australian and Singaporean markets, stalled the revenue performance compared to the prior corresponding period. The organisation remains focused on increasing market penetration within its key markets, whilst investing in its brand equity across the region.

Net profit after tax was impacted by an additional \$1.0 million investment expensed in the first half substantially related to the mass media and brand campaign for the Herbs of Gold brand within Australia. There was also \$0.9 million incremental administrative expenses, arising mainly from higher staff costs and additional resource requirements across the organisation.

The Groups balance sheet remains strong with an equity of \$21.2 million and net cash position of \$7.5 million after borrowings.

A summary of the Group's individual business units' performance follows:

#### Australia

Revenue in Australia declined marginally by \$0.1 million against prior corresponding period (PCP) to \$8.4 million. During the year, the Herbs of Gold brand was successfully launched into the Pharmacy channel. New revenues from the Pharmacy channel offset the softer performance from the Company's traditional Health Food channel.

The Health Food channel revenue declined by 13% against PCP, amidst challenging retail conditions across the category. Contribution from the export sector into mainland China also reduced marginally, following the increased regulatory regime for export sales to China.

Pharmacy and export revenue (excluding China) increased vs PCP. The sales contribution has come from additional independent, new export and Pharmacy banner accounts across the country. Management is pleased with the brands penetration into Pharmacy thus far and remains confident in the expansion strategy for the Australian market moving forward.

Australian EBIT performance was heavily impacted by advertising costs expensed in the first half to support the Herbs of Gold mass media brand campaign. The advertising strategy was previously outlined in the Groups three-year strategic plan to broaden consumer appeal of the Herbs of Gold brand.

#### Malaysia

Malaysia revenue of \$7.1 million was higher than PCP by 2%. A deliberate strategy has been implemented to increase the presence of the VitaHealth brand through major chain Pharmacies in Malaysia. The shift in channel representation has underpinned the revenue performance in the first half. The Herbs of Gold brand has also performed well and has delivered solid growth through its exclusive distribution agreement.

EBIT contributions increased by 17% against PCP.

# DIRECTORS' REPORT

## DIRECTORS' REPORT (CONTINUED)

### Singapore

Singapore revenue of \$3.1 million was lower against PCP by 4%. The market remains highly competitive with EBIT lower than PCP by 40%. A combination of higher retailing trade costs and promotional expenses heavily influenced profit performance in this market. It's expected that higher trade related costs associated with traditional and e-commerce channels will continue for the remainder of the year.

### Other Markets: Vietnam, Indonesia, Thailand, China.

Other Markets generated revenue of \$1.7 million and higher against PCP by 29%. The Vietnam market continues to perform well, whilst Indonesia and Thailand gained traction albeit from a lower base. The Company has initiated a strategic review of our operations for both the Indonesian and Thailand markets.

Mainland China export sales continue to be slow. Future revenue expectations from this market remain positive with a revised strategy to capture greater appeal through e-commerce channels in the second half of the year.

### Equal Reduction of Capital

On 12 June 2019, the Company completed the transfer of its shares and assets in Mitre Focus (owned by its subsidiary Lovin Pharma Ltd) to another wholly-owned subsidiary, Macarthur National Ltd (MNL) and, then made a pro-rata in specie distribution of all the shares of MNL to all shareholders of the Company.

Arising from the above, the Company recorded a net gain before income tax of \$0.28 million. Further details of this transaction are detailed in Note 7 of the Consolidated Financial Statements.

### OUTLOOK

The first half performance reflects the softer retail climate within the vitamin and supplements category across the region with such conditions expected to continue into the foreseeable future. Higher advertising and promotional costs expensed in the first half, will impact full year EBIT performance. Directors remain confident in the long-term strategies set for the business.

## NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 30 JUNE 2019

### 1. CORPORATE INFORMATION

The Half Year financial report of Vita Life Sciences Limited ("Vita Life Sciences") and its controlled entities ("the Group") for the half-year ended 30 June 2019 was authorised for issue by a resolution of the directors on the date of this report.

Vita Life Sciences is a Company limited by shares, incorporated and domiciled in Australia, whose shares are publicly traded on the Australian Securities Exchange ("ASX").

The nature of the operations and principal activities of the Group are described in the Directors' Report.

### 2. BASIS OF PREPARATION

These general purpose condensed consolidated financial statements for the half-year reporting period ended 30 June 2019, have been prepared in accordance with the requirements of the Corporations Act 2001, and Australian Accounting Standard AASB 134 "Interim Financial Reporting." The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Vita Life Sciences Limited. As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 31 December 2018, together with any public announcements made during the following half-year.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements, except for the effects of applying newly effective accounting standards as outline below.

The half-yearly condensed consolidated financial statements have been prepared on a historical cost basis.

#### New and amended accounting standards and interpretations adopted by the Group

The Group has adopted all of the new or amended Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (AASB) that are mandatory for the current period. The following Accounting Standards and Interpretations are most relevant to the Group:

#### AASB 16: Leases

The Group has adopted AASB 16 from 1 January 2019. The standard replaces AASB 117 'Leases' and for lessees eliminates the classifications of operating leases and finance leases. Except for short-term leases and leases of low-value assets, right-of-use assets and corresponding lease liabilities are recognised in the statement of financial position. Straight-line operating lease expense recognition is replaced with a depreciation charge for the right-of-use assets (included in operating costs) and an interest expense on the recognised lease liabilities (included in finance costs).

In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. However, EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results improve as the operating expense is now replaced by interest expense and depreciation in profit or loss. For classification within the statement of cash flows, the interest portion is disclosed in operating activities and the principal portion of the lease payments are separately disclosed in financing activities. For lessor accounting, the standard does not substantially change how a lessor accounts for leases.

#### Impact of adoption

AASB 16 was adopted using the modified retrospective approach and as such the comparatives have not been restated. The impact of adoption on opening retained profits as at 1 January 2019 was as follows:

	Total \$'000
Operating lease commitments as at 1 January 2019 (AASB 117)	949
Operating lease commitments discount based on the respective individual incremental borrowing rate of 4-9% (AASB 16)	(75)
Short term leases not recognised	(24)
Low value assets lease not recognised	(49)
Accumulated depreciation as at 1 January 2019 (AASB 16)	(307)
Right-of-use assets (AASB 16)	494
Lease liabilities-current (AASB 16)	(275)
Lease-liabilities- noncurrent (AASB 16)	(237)
Reduction in opening retained profits as at 1 January 2019	(18)

# NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 30 JUNE 2019 (CONTINUED)

## 2. BASIS OF PREPARATION (CONTINUED)

### **Right-of-use assets**

A right-of-use asset is recognised at the commencement date of a lease. The right-of-use asset is measured at cost, which comprises the initial amount of the lease liability, adjusted for, as applicable, any lease payments made at or before the commencement date net of any lease incentives received, any initial direct costs incurred, and, except where included in the cost of inventories, an estimate of costs expected to be incurred for dismantling and removing the underlying asset, and restoring the site or asset.

Right-of-use assets are depreciated on a straight-line basis over the unexpired period of the lease or the estimated useful life of the asset, whichever is the shorter. Where the Group expects to obtain ownership of the leased asset at the end of the lease term, the depreciation is over its estimated useful life. Right-of-use assets are subject to impairment or adjusted for any remeasurement of lease liabilities.

The Group has elected not to recognise a right-of-use asset and corresponding lease liability for short-term leases with terms of 12 months or less and leases of low-value assets. Lease payments on these assets are expensed to profit or loss as incurred.

### **Lease liabilities**

A lease liability is recognised at the commencement date of a lease. The lease liability is initially recognised at the present value of the lease payments to be made over the term of the lease, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Lease payments comprise of fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, amounts expected to be paid under residual value guarantees, exercise price of a purchase option when the exercise of the option is reasonably certain to occur, and any anticipated termination penalties. The variable lease payments that do not depend on an index or a rate are expensed in the period in which they are incurred.

Lease liabilities are measured at amortised cost using the effective interest method. The carrying amounts are remeasured if there is a change in the following: future lease payments arising from a change in an index or a rate used; residual guarantee; lease term; certainty of a purchase option and termination penalties. When a lease liability is remeasured, an adjustment is made to the corresponding right-of-use asset, or to profit or loss if the carrying amount of the right-of-use asset is fully written down.

### **New accounting standards and interpretations not yet adopted**

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

## 7. EQUAL REDUCTION OF CAPITAL

At the Company's Annual General Meeting on 31 May 2019 shareholders approved:

1. The transfer of its shares and assets in Mitre Focus (owned by its subsidiary Lovin Pharma Ltd) to another wholly-owned subsidiary, Macarthur National Ltd (MNL); and
2. a pro-rata in specie distribution of all the shares of MNL to shareholders of the Company registered as at the Spinoff Record date and simultaneously effected a reduction in the issued share capital of the Company, without cancelling any shares, by an amount equal to the fair value of the total issued capital of MNL.

These transactions were completed on 12 June 2019 with shareholders receiving 1 new MNL share for every 10 shares held in the Company.

The fair value of the shares and assets of Mitre Focus at the Spinoff Record Date was determined by the Directors of the Company at \$1.348 million or \$0.25 per MNL share.
